Project

«DANCES IN THE CLUB»

Cultural and Creative Art Organization, which creates and implements conceptual, interesting thematic events that will teleport you to a small Ukrainian "island", where you will remember and experience authentic traditions, folk art, folklore and modern art.

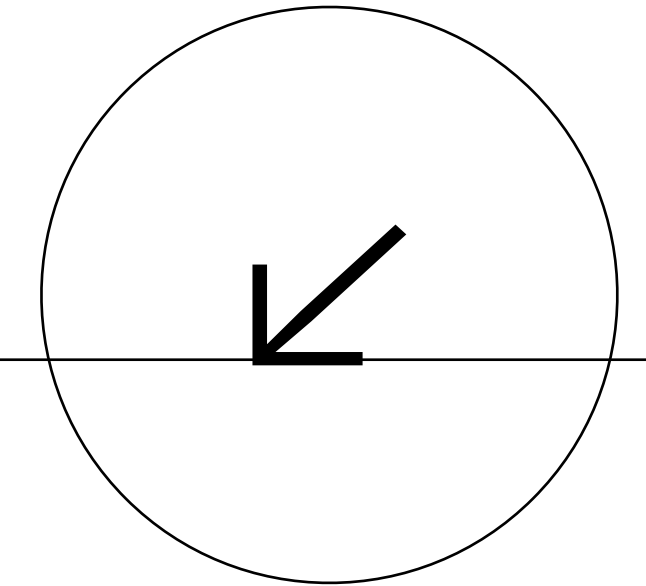

Mission

Development of Ukrainian culture, music and creativity in the USA

by creating relevant, thematic events aimed at supporting, strengthening and developing the brand of Ukraine on the territory of the North American continent.

Audience

OUR VISITORS ARE MOSTLY UKRAINIANS OF AMERICA, AND GUEST, CULTURAL AND PROGRESSIVE PEOPLE, MUSIC LOVERS, DISCO, PARTY AND DANCE LOVERS.

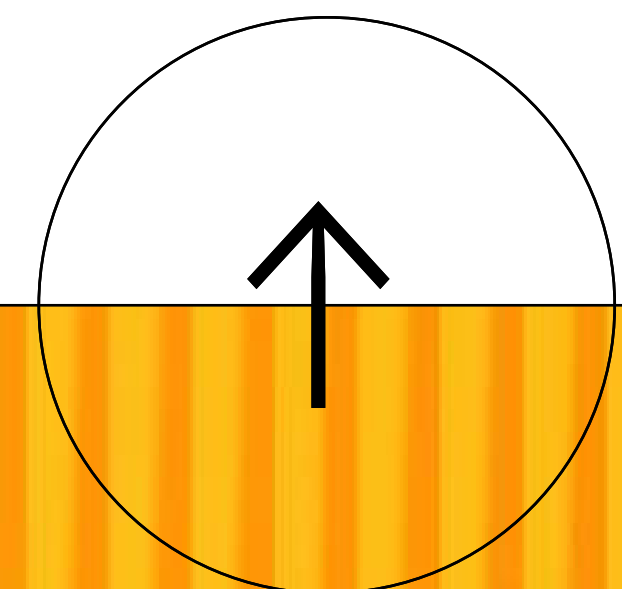

Our events are always conceptual, engaging, trendy, cultural, and, on occasion, family-friendly, with appropriate content of line-up. In fact, our target audience is people aged 30 and up who work every day and would like to have a good resting time after work. They like to go out and join parties, get a dose of cultural inspiration, listen to quality live music, meet new progressive people, possibly make new friends, and, after attending a concert by a star artist, take a photo with them and get an autograph.

The venues where we intend to have our events can hold up to **500** people.
